

2012

Every bride dreams of looking radiant on their wedding day, and the importance of donning the right makeup and hair style for that once in a life time occasion is second to none. Unfortunately, finding the right person amongst the sea of makeup artists available can be both daunting and sometimes downright frustrating.

Having offered my services as a professional for almost a decade, I have developed a consistent approach to meeting the various requirements and demands of having the best look for a bride. Every bride is unique, and I can help in determining which style work best in bringing out that uniqueness in every bride.

Besides focusing on wedding makeup, I have also been involved in providing makeup and hair styling services for photo shoots, bridesmaid makeup ,themed events, corporate functions and private gatherings. Overseas job assignments are also welcomed, and i have offered my services in various locations around the globe.

It is your mission to look beautiful on your wedding day, and it is mine to make sure you do.
